

Important Rate Information

Due to the Coronavirus Pandemic, our center capacity has been reduced. We are not able to serve as many clients and cleaning costs, PPE requirements, and operational costs have increased. On January 1st, 2021 the minimum wage in Illinois will increase again. In order to offset increasing costs, Bright Start will raise rates \$5 per day for each age group.

The new rates effective January 4, 2021 will be as follows:

Children age 6 weeks to 1yr 11mo	\$45.00 per day
Children 2 years to 2yrs11mo	\$38.00 per day
Children 3 years and up	\$33.00 per day

The rate increase will help cover operation costs and support our goal to work towards continuous quality improvement. **The new rates will be effective January 4, 2021.**

Thank you for your continued support and cooperation!
